Raise Tower Bridge Follow up

Discussion topics to help your class reflect on their visit to Tower Bridge.

What skills did you use during the coding activity?

What knowledge, subjects or skills were helpful during the activity?

Why is coding important at Tower Bridge?

How is coding used in real life at the bridge? What is it needed for?

Can you explain what coding is?

How would you explain this to a child in reception?

What was the biggest challenge you had during the activity?

How did you overcome it? What did you learn?

What would you like to learn more about?

Think about what you found interesting from your visit.

What was your favourite part of the visit? Why?

What do you wish we'd had more time for?

If you could invite one person who works at Tower Bridge to school to learn more about their job, who would it be?

What would you ask them?
What skills do you think they need in their job?
